

## MCO Micro Services and Pricing

Testing Service	Rate
Microscopic Evaluation Report (includes foam analysis)	\$300
Microscopic Report + Genetic Report	\$600
Anaerobic Micro + Genetic Report	\$450
Anthrone/Polysaccharide Test	\$250

- Standard DNA result turn-around time is 2-3 weeks. Results can be expedited for a 1-4 day expected lead time for \$300.
- Our lab accepts samples Monday-Friday from 7:00 AM to 3:00 PM. Arrangements can be made for urgent after hours or weekend testing for an additional \$150 fee. Please contact us for availability and an alternate shipping address.
- **Now Available:** A Micro-Trak app is available for trending and comparing time series graphs of filament types and their rank/abundance versus process control data and other variables. This will be available to all MCO clients upon request with no additional fees or charges.

Additional Testing/ Services	Rate
Additional Basin/ Sample Point for Microscopic Evaluation	\$50
Additional Basin/Digester/Sample Point for Genetic Testing	\$300
Onsite Microscopy Training or Troubleshooting	\$2000/day + travel expenses (lump sum)
Customized Microbiology Poster	\$75 (including shipping)
Nitrification Study (Basic)	\$300 (call for details)
Toxicity/Inhibition Study (Advanced)	\$750 (call for details)

*\*All rates are in US dollars.*
